CRITERIA FOR REGISTRATION AS A DANCE MOVEMENT PSYCHOTHERAPIST

1. GENERAL REQUIREMENTS

This section specifies the requirements for registration as a Dance Movement Psychotherapist with the ADMP UK.

The minimum educational qualification required for entry to the profession is a completed postgraduate Masters level diploma in dance movement therapy awarded by a UK university that has been formally recognised by ADMP UK (See section 3). Candidates from abroad with equivalent qualifications may be considered under the overseas route.

All candidates must have completed a minimum period of personal therapy (see section 6). It is the training programmes’ responsibility to ensure that candidates have completed required personal therapy concurrent with the programme of study.

All clinical work and contact with a ‘placement’ site during training will be undertaken under the close scrutiny and supervision of an experienced RDMP or other appropriate senior professional.

2. CRITERIA FOR REGISTRATION AS A REGISTERED DANCE MOVEMENT PSYCHOTHERAPIST

All ADMP UK accredited post graduate training programmes cover the requirements for RDMP registration. Candidates applying for RDMP are required to provide proof of graduation from an ADMP UK accredited programme e.g. graduation certificate or letter of completion from the Course Director.

3. THE PROFESSIONAL REGISTERS

ADMP UK maintains three professional registers. The professional registers have been established in order to safeguard the quality and standards of the Dance Movement Psychotherapy profession in the United Kingdom for the benefit both of its members and of the public.
The Register of Professional Members consists of names and addresses of individuals who are recognised by the Association as competent and licensed to practice to work as professional DMPs.

The Register of Private Practitioners is maintained and regulated by the ADMP UK Professional Development Committee and consists of the names of professional members who are competent and licenced to act as private practitioners.

The Register of Clinical Supervisors Practitioners is maintained and regulated by the ADMP UK Professional Development Committee and consists of the names of professional members who are competent and licenced to act as clinical supervisors.

4. TERMS OF RENEWAL OF PROFESSIONAL MEMBERSHIP

Professional Membership

General
Council has decided that only those members who fulfil their CPD requirements and provide proof of insurance will be registered as professional members and issued with a Licence to Practice.

Council has also decided that only those professional members who have renewed their membership by 31st March will be included in the Register of Professional Members.

Continuing Professional Development
The CPD document, adopted by Council, and which forms part of the Criteria for Registration explains how to meet the commitment to maintaining, extending and developing professional skills and knowledge. Members are required to keep their own CPD logbooks. These should be available for inspection by ADMP at seven days notice. It is sufficient to sign the declaration on the renewal form. Log books need not be submitted on renewal of membership.

Signing the CPD Declaration on the membership renewal form is required as a condition of issuing the annual Licence to Practice

Insurance
On renewing membership members are reminded that they are required to have professional indemnity insurance both for their own protection and in order to have the support of the ADMP. Insurance may be provided by an employer. Any member running workshops, studios or any other activity involving members of the public and all ADMP members in private practice will require their own insurance.

Signing the Insurance Declaration on the membership renewal form or providing a copy of your insurance is required as a condition of issuing the annual Licence to Practice.

Supervision
ADMP recommends that
• Supervision should be in the ratio of eight hours of client contact hours to one hour of supervision.
• Telephone, e-mail and/or internet supervision is not adequate for dance movement psychotherapy practice as the only form of supervision.
• Practitioners should receive a minimum of one hour of face-to-face supervision per month.
• Practitioners should receive an appropriate level of body work supervision regardless of what other supervision they receive. It is recommended to be a minimum ratio of one hour of body work supervision to forty hours of clinical practice or every three months, whichever comes sooner.

_Signing the Supervision Declaration on the membership renewal form is required as a condition of issuing the annual Licence to Practice_

**Your Licence to Practice**
This is issued on an annual basis when the conditions of continued membership have been met and the appropriate fee is paid. The ADMP UK only provides support to members working as Dance Movement Psychotherapists who have a current and valid Licence to Practice. The Licence only covers the right to practice in the UK since the remit, authority and supervision of the ADMP UK only extends to the United Kingdom.

**Non-Practicing Membership**
This is available to Registered Dance Movement Psychotherapists who, for any reason, are not practising and wish to retain their membership.
• The fee for this level of membership is £50.00 per annum.
• Members are required to continue their CPD whilst not practicing and to sign the CPD declaration on the renewal form with their renewal fee.
• This level of membership does not provide a Licence to Practice. The ADMP is unable to support any member practicing without a licence.

If a member is non-practicing for more than two years they will also have to fulfil the conditions listed below under Returning To Practicing Membership See 2.2 below.

**Late Membership renewals**

• The late fee will be £50.00 from 1st July to the 30th September.
